Stuff the foot firmly. Continue to stuff the leg while crocheting.

*** Using **color no. 263** crochet a sole from **rnd 01 to rnd 03**. Crochet 1slst + Ch1. Place the sole on a piece of cardboard and draw the outline around. Now cut out your shape on the inside of the line. If necessary, cut to make the cardboard fit nicely. (photo 1)

With the leg opening facing you, take the first remaining loop of round 4 AND the slipstitch on your sole (photo 2), crochet 1slst, repeat all the way around. Don't forget to put your cardboard between the soles before you're all the way around.

Fasten off. Hide all loose ends.

Continue on the leg.

Rnd 13 – 25: 1sc in each stitch (15)

1slst and fasten off. (the slipstitch is the first stitch to use to connect the legs together)

Take 1 wire of 30 cm that you have already cut. Sew 5 threads to form the toes. You start just above the edge of the skin color. Go up from the outside and insert your needle back in the 4th round. Pull your wire each time to form the toes. I have made the toes in the photos with a white thread so that you can clearly see where the toes come. Work your wires away invisibly when the toes are ready.

Facial expression:

- Take a long thread in **color no. 157**, enter at the back of the head, and come out on the outside of the first eye just above the round with the increases (photo 1). Put your thread under the eye and go 2 stitches further back into the head (photo 2), come out at the same place where you entered at the back of the head. Pull your thread so that the eye lies a little "deeper". Put a knot in your threads.

- Repeat for the second eye.
- Take a long **white thread**. Insert your needle through the back of the head and come out above the eye on the inside (1), go long the outside of the eye to about half and go 1 stitch further back into the head (2). Come out just above the round with the increases against the eye (3). Go back into the head in the same place as with no (2). Now fill with 2 stitches the "corner" that you have created. Eventually, come out at the same place at the back of the head as at your beginning. Put a knot in the ends and work the threads away invisibly. Do the same with the 2nd eye.
